

# Division of Criminal Justice Services

## **Quarterly Activity Report** **County Re-entry Task Forces (CRTF)**

July 2015 – September 2016

Data as of October 2016

Quarterly Activity Reports are provided to ATI/community correction, re-entry employment programs, and CRTFs funded by DCJS. These preliminary reports reflect data that are reported to DCJS as of the date indicated and should be reviewed carefully by the programs. Any corrections should be included in the data submission for the next reporting period. An annual report with final case counts will be distributed, after all adjustments have been made.

Issued December 2016

## **Background**

The NYS Division of Criminal Justice Services (DCJS) provides important feedback to funded programs through this Quarterly Activity Report. The report presents the total number of admissions each quarter, as well as a year-to-date total. The report also presents program status at 45 days post-admission for the quarter, as well as a year-to-date total. The report includes information on participant characteristics, such as age, race/ethnicity, criminal history, and current criminal charges, for County Re-entry Task Forces (CRTFs) funded by DCJS. Due to contract extensions, details are provided on CRTF participants from July 1, 2015 to September 30, 2016.

The information presented in this report reflects data provided by the CRTFs as of October 30, 2016. Updated information provided by the CRTFs will be included in future reports.

## **Report Tables**

The Quarterly Activity Report presents the tables listed below. A detailed description of each table, including how cases were counted, can be found in Appendix A. A description of the process used to match cases to criminal history information can be found in Appendix B.

- Program Admissions, by Program
- Participant Characteristics, by Program
- 45 Day CRTF Program Status, by Program
- CBI Enrollments and Discharges, by Program

<b>Total</b>	<b>216</b>	<b>183</b>	<b>140</b>	<b>1,254</b>	<b>994</b>	<b>673</b>

<sup>1</sup>Counts all enrollments within a quarter

<sup>2</sup>Counts total successful completions out of total CBI discharges

Note: Erie CRTF not included due to errors in data

## Appendix A. Detailed Description of Tables

Program Admissions presents admissions to each of the CRTFs for the most recent quarter and the contract year-to-date. This table includes all admissions since July 1, 2015. If a participant was admitted more than once, all admissions to the program are counted. The admissions are then summed to produce a cumulative number of admissions reported during the contract period.

Participant Characteristics presents more detailed information on each admission during the reporting period and cumulative through the contract year. Information is provided separately for each program. Characteristics include sex, age at admission, race/ethnicity, DOCCS supervision level, and special population type. Counts, percentages, and program totals are presented. Legal history includes the total number of arrests that appear in the participant's criminal history record, number of prior felony arrests, number of prior felony convictions, number of misdemeanor convictions, and characteristics of the placement offense. Violent Felony includes all violent felony offenses and VFO-like offenses (see PL 70.02); Drug Offense includes all PL 220 and PL 221 offenses that are not otherwise VFOs; DWI includes VTL 1192, 511.00; Property includes non-VFO property offenses (e.g., petit larceny); and Other Offenses includes all other PL and VTL offenses not otherwise categorized. The percentages for Felony Total and Misdemeanor Total are presented. The percentages for Felony Total and Misdemeanor Total sum to 100%. Total percent may not sum to 100% if placement offense information is missing. Participants with missing or invalid NYSIDs are not included in the table.

45 Day CRTF Program Status presents detailed information about program engagement at 45 days post-admission, including indicators for Housing, Employment, and CBI. This table also includes official counts of the number and percent of participants rearrested between program intake and the 45 day retention date. Counts are based on official criminal history information. Counts are provided for participants with any in-program rearrest, and participants with a rearrest for a felony level offense. The average number of days from admission to the first in-program arrest is also presented. Arrests for participants who are not engaged at 45 days are included in the counts.

CBI Enrollments and Discharges presents enrollments in and discharges from CBI or RSW! services for the most recent quarter and the contract year-to-date. Total CBI or RSW! Enrollments are presented first, and Total CBI or RSW! Discharges are presented in the next column. The final column reports the number of CBI or RSW! discharges that were successful completions.

## Appendix B. Matching Admissions to CCH

The Computerized Criminal History (CCH) database includes all fingerprintable arrests reported to DCJS, as well as information about case dispositions. CCH data provide a complete history of an arrestee's known criminal activity.<sup>1</sup> OJRP developed the following rules to match admissions to CCH data. After extensive analyses, these rules were determined to provide the best matches to arrests in CCH for the programs funded by DCJS.

### Matching Rules:

1. Files were first matched on NYSID and DIN, as provided by the programs.
2. If there was not an exact match on NYSID and DIN, cases were matched to the last DOCCS release before program admission.
3. If the NYSID was not provided or did not match to CCH, the admission was excluded from further analysis.

The detailed admission tables included in this report present information on only those admissions that were matched to CCH (98% of reported cases). Of the 127 cases not matched to CCH, 46 had invalid NYSIDs, 47 had missing NYSIDS, and 34 did not have a reported DOCCS release date prior to admission. NYSIDs that were not matched to CCH will be provided in a separate file to the appropriate programs.

The matching results are summarized below.

### Matching CRTF Admissions to CCH

<b>Matching Process</b>	<b>Number</b>	<b>Percent</b>
Total Number of Reported Cases	5,614	100%
Match by NYSID and DIN	5,362	96%
Match by NYSID and last DOCCS Release before Admission	125	2%
Total Matched to CCH	5,487	98%
Total Not Matched to CCH	127	2%

---

<sup>1</sup> Arrests in CCH are organized by NYSID, which is assigned when an arrestee is fingerprinted. If the case is disposed in favor of the defendant, and the defendant has no prior convictions, the fingerprints are destroyed and the NYSID is no longer assigned to that defendant. If the defendant is re-arrested, a new NYSID is assigned. Because CCH is organized by NYSID, the initial arrest, stored under a different NYSID, is not included in the defendant's arrest history, and would not be reflected in the Participant Characteristics table.
