Kenneth P. Thompson
District Attorney

February 2, 2016

Dear Community Partner in Justice:

Every day, my office strives to enhance the public safety and well-being of Brooklyn residents. While relentless in our pursuit of those who spread fear in our neighborhoods and victimize our communities, we are equally determined to ensure that there is fairness in every aspect of our criminal justice system here in Brooklyn. We are also deeply committed to improving the quality of life of community members through innovative partnerships with stakeholders both inside and outside law enforcement. In these endeavors, we look to you—one of our key stakeholders and valued partners—to guide us, support us and work with us to realize the goal of a safe and healthy Brooklyn, with equal justice for all.

Thanks to you and fellow community partners in justice, we have already made great strides towards achieving that goal. In recognition of the vital role you play in the furthering the mission of this office and in improving the lives of everyone in Brooklyn, I want to keep you as up to date and as well informed as possible regarding our work. Therefore, we are launching an electronic notification system that will swiftly alert you about any breaking news out of this office. I hope that this most current information will assist you in serving your communities and the cause of justice.

Sincerely,

Ken Thompson
