#### Job Description

**\*\*ONLY PERMANENT COMPETITIVE EMPLOYEES IN THE TITLE OF COMPUTER SPECIALIST (SOFTWARE). YOU MUST CLEARLY STATE YOUR CIVIL SERVICE STATUS ON YOUR RESUME OR COVER LETTER. FAILURE TO DO SO WILL RESULT IN YOUR DISQUALIFICATION.**

The Kings County District Attorney's Office, located in the Metrotech area of Brooklyn, New York, is accepting applications for the position of Jr/Mid-level ASP.NET Developer to complement our existing technology team.

Under general supervision, with latitude for independent initiative and judgment and decision the prospective candidate will perform the following duties:

- Develop, test and maintain software used in the work of the Kings County District Attorney's office using Microsoft Technologies (ASP.NET , VB/C#, SQL).
- Troubleshoot existing software and data structures toward building the next gen of data/software to drive the KCDA's mission.
- Work on multiple web applications built in .NET of varying degrees of complexity and priorities. Technologies include C#, .NET 4.0/4.5, MVC4+, ADO.net, Web Services/Web SPHs, HTML5, CCS, JavaScript, Microsoft SQL 2008R2/2012R2.
- Develop ad-hoc data integration/transformation solutions using SSIS, stored procedures and 3rd party tools.
- Create and review technical design documents.
- Assist with the development of IT project plans and providing time/effort estimates for assigned work.

#### Minimum Qual Requirements

- (1) A baccalaureate degree from an accredited college, including or supplemented by twenty-four (24) semester credits in computer science or a related computer field and two (2) years of satisfactory full-time software experience in designing, programming, debugging, maintaining, implementing, and enhancing computer software applications, systems programming, systems analysis and design, data communication software, or database design and programming, including one year in a project leader capacity or as a major contributor on a complex project; or
- (2) A four-year high school diploma or its educational equivalent and six (6) years of full-time satisfactory software experience as described in "1" above, including one year in a project leader capacity or as a major contributor on a complex project; or
- (3) A satisfactory combination of education and experience that is equivalent to (1) or (2) above. College education may be substituted for up to two years of the required experience in (2) above on the basis that sixty (60) semester credits from an accredited college is equated to one year of experience. A masters degree in computer science or a related computer field may be substituted for one year of the required experience in (1) or (2) above. However, all candidates must have a four year high school diploma or its educational equivalent, plus at least one (1) year of satisfactory full-time software experience in a project leader capacity or as a major contributor on a complex project.

NOTE: In order to have your experience accepted as Project Leader or Major Contributor experience, you must explain in detail how your experience qualifies you as a project leader or as a major contributor. Experience in computer operations, technical support, quality assurance (QA), hardware installation, help desk, or as an end user will not be accepted for meeting the minimum qualification requirements.

#### Special Note

To be eligible for placement in Assignment Level IV, in addition to the Qualification Requirements stated above, individuals must have one year of satisfactory experience in a project leader capacity or as a major contributor on a complex project in data administration, database management systems, operating systems, data communications systems, capacity planning, and/or on-line applications programming.

#### Preferred Skills

- Possess functional knowledge of HTML5, JavaScript and SQL, object-oriented coding methodologies.
- Possess hands-on web-based application development experience.
- Demonstrate understanding of different software development life-cycle methodologies.
- Possess hands-on experience with relational database design and implementation.
- Excellent verbal and written communication skills.
- Ability to work well and communicate effectively with other professionals.
- Knowledge of AngularJS a plus.
