Job Description

The Kings County District Attorney's Office located in the Metrotech area of Brooklyn, New York, has an exciting opportunity to work in the Information Technology department as a Digital Forensic Analyst.

The Digital Forensic Analyst is a technology generalist who will work in a team-based environment with prosecutors, analysts and law enforcement personnel including city and federal agencies providing case investigation and litigation support, including e-discovery.

The candidate will provide assistance detecting, recovering and analyzing evidence for use in judicial proceedings including forensic analysis of digital devices such as mobile and desktop computers, cell phones, smartphones, USB devices, digital cameras, and video recorders. The Digital Forensic Analyst must be able to manage and analyze large-scale data sets to identify key elements of criminal activity.

Digital Forensic Analysts use forensic tools and investigative methods to find specific electronic data, including Internet use history, word processing documents, images, and e-mails and other files from computer hard drives, smart phones and other data storage devices, such as zip and flash drives, that have been deleted, damaged or otherwise manipulated. Numerous software applications are also used to review, analyze and present the information recovered.

Under general supervision, with latitude for independent initiative and judgement and decision the prospective candidate will perform the following duties:

- Assist detectives and other officials analyze data.
- Evaluate its relevance to the case under investigation.
- Translates the evidence into a format that can be used for legal purposes (i.e. criminal trials)
- Testify in court regarding the information recovered.

Minimum Qual Requirements

Qualification Requirements

1. High school graduation or equivalent and three years of experience in community work or community centered activities in an area related to duties described above; or
2. Education and/or experience which is equivalent to "1" above.

Preferred Skills

Bachelor's Degree in Computer Science, Information Systems or Related Field.
Computer Forensic Training.
Technical Reporting/Writing.
Strong application skills in all desktop Office productivity programs: Word, Excel, Access and Outlook.
Relational Database experience with products such as MySQL, SQL, etc.
Strong presentation skills.
Quick learner.
Experience in programming or scripting language(s).
Experience conducting forensic examinations.
Previous experience in computer science in a development or engineering capacity.
One or More Related Certifications such as the EnCE, CFCE, CCE, or CISSP.
Encase, UFED analyzer, Trial Director.
